

PRESS RELEASE

Heli Forklifts Named a 2017 Top 10 Global Forklift Manufacturer by *Material Handling & Logistics*

MEMPHIS, June 5, 2017 /Material Handling & Logistics/ -- Heli Forklift Group (Anhui Heli Co. Ltd.) is honored to be named one of the top forklift manufacturers by Material Handling & Logistics (MH&L).

Heli was ranked 8th in the MH&L Top 10, which is a ranking of the top manufacturers of forklift products and services globally. Heli was selected during the annual look at the 10 largest global manufacturers of lift trucks ranked by revenue. Anhui Forklift Group Co. Ltd., had revenues of \$1.123 billion in 2016, according to *Statista* and *Financial Times*.

"With the eyes of the world (or at least some of them) on forklifts this month in recognition of National Forklift Safety Day, we again are presenting our ranking of the 10 largest global manufacturers of forklifts as ranked by revenue. " as told by David Blanchard, Editorial Director / Associate Publisher, Material Handling & Logistics. "These suppliers play an outsized role in providing some of the leading material handling technologies and vehicles used worldwide by companies to manage their warehouses and distribution centers. All financial figures are stated in U.S. dollars, based on the relevant exchange rate as of December 31, 2016."

The Heli Forklift Group is one of the ten largest manufacturers of material handling equipment in the world! Based in Memphis, Tennessee, The Heli Forklift Group was created in 2007 to provide both Material Handling Dealers and their customers with a top-quality product. The Heli forklift line is rugged in both design and componentry, without the complex technology (and its associated acquisition and repair costs) that has become all too prevalent in the material handling industry today. As one of the most vertically integrated manufacturers in the global material handling business, Heli's total manufacturing footprint exceeds 10 million square feet with corporate offices adding an additional 350,000 square feet. Heli has the ability to supply our customers with the best material handling equipment and aftermarket support available in the world.
